## Research the Ways

Enter into Training. Find and watch a good video on Basic Personal Finances for your age group.

## Look Within

List out your Goals from small and easy, to practically impossible. Example: We at FestiQuest want to one day be an amusement park! But first, we want to make 10 people happy through festiquest.

## Review and Upgrade Your Gold Storage

Ask your guardian to help you look over how you store your treasure and gold. There may be a bank or credit union that can store your gold with no fees & with higher interest rates. Humans that have everything they want to buy have to first learn these details.

**Donate an item you don't need, to a person who would enjoy it. Make it fun and give it to them as a prize for completing a quest you create**

# Through Training, You Can Be a Nickel Ninja
