With Forests Green as Trees

From seed to heavens a tree grows tall,
Releasing oxygen to the world, supplying us all.
Princess Earth grows trees like we humans grow hair.
And the trees give us life, they provide the world's air.

Become a Protector for Princess Earth

Look at your daily life and find one thing you can change to be a better protector for Princess Earth. Ask your guardian for help with this.

Instead of buying something new, take something from your current possessions you never use or look at and upcycle it. (Upcycling means to change the item to look better or function in a better way.)

Oceans of Beautiful Mysterious Life

Water is a force that resides in every living thing.

While the trees hum, the oceans sing.

A different world completely swims and shares,
Defenseless against pollution, it is humans who should care.

❑ Learn More of the Great Mystery

Oceans and water sources hold an infinite amount of unknowns. Learn 3 new facts about the ocean and its life.

❑ Apply Yourself

Every small effort is more effort than none. Go into your recyclables at home and look up crafts or hacks you can make using just items you would normally recycle.

❑ Meet an Ambassador

Our oceans are full of sea life. Choose an animal from the sea to learn more about and draw a funny looking comic of the animal with a sign to save the ocean. Share it with your friends.

How Will You Win the Heart of a Princess?

We call the Earth a princess for it is its role in our story.

Though its strong, it is fragile, a sight for each morning.

**We regard the Princess Earth with awe and think it pure,
If we treated the Earth like a princess, it may provide all cures.**
